Re: Response to Review Request
RR 083-18113
Permit Status Evaluation
Source ID: 083-00047

Dear Ms. Parrish:

Babb Lumber Company located at 700 Fulton Glass Road, Vincennes, IN, submitted a review request on September 5, 2003. The letter was submitted to determine if Babb Lumber Company requires an air pollution permit for the storage and use of a copper-based amine formula wood preservative. As indicated in your letter, storage tank capacities are 10,000, 10,000, 5,300 and 6,300 gallons.

Criteria pollutant threshold levels for exemptions are as follows:

PM_{10} = < 5tpy; SO_2 = < 10 tpy; NO_x = < 10 tpy; VOC = < 10 tpy for sources not required to use air pollution control devices to comply with 326 IAC 8; VOC = < 5 tpy for sources required to use air pollution control devices to comply with 326 IAC 8; CO = < 25 tpy.

If a source can comply with exempt levels, the burden of proof lies with the source. If the source requires a definite decision to be made by the IDEM and a permit be issued, filing fees and any other permit fees shall be applicable according to the level of permit required.

Questions should be directed to Mack Sims, OAQ, 100 North Senate Avenue, P.O. Box 6015, Indianapolis, Indiana, 46206-6015, or call (800) 451-6027, press 0 and ask for Mack Sims or extension 3-0867, or dial (317) 233-0867.

Sincerely,
